Hi Peter,

The attached spreadsheet contains the final contract request for Fiscal Year 2017-2018 the Permit Support and Pretreatment Inspections In-Kind services. This spreadsheet also contains the cost based on previous cost factors. Below is a quick summary of our request.

**Permits** (note the spreadsheet contains one Once Through Cooling facility which is equivalent to one Group I plus one Group III):  
Group I – 34  
Group II – 9  
Group III - 2

**Pretreatment:**

Pretreatment Compliance Inspection – 23  
Pretreatment Compliance Audits – 9  
Element Revisions – 0 (zero)  
Full Revisions – 0 (zero)  
Trainings – 2

Please let me know if you have any questions.

Thanks,

-Gil Vazquez

Hi Peter,

Sounds good. I'll just allocate it to RB3 until told otherwise. At that point I can re-allocate to a different RB (Plenty of permits to choose from).

I am waiting on some details from RB6. Once received, I will send you the finalized contract support list for permit and PCI/PCA.

Thanks,

Hi Gil – I got your vmail and I don't have an immediate answer as to whether or not permit support for RB3 is still curtailed.

I believe, in previous years, we've written contract language and 106 inkind support letter with sufficient flexibility that allows SWRCB to substitute one permit for another as long as it is within same price tier.

Our contract language will be similar this year.

So.....I see two options:

- a. ID permits that SW wants and realize that it may get swapped out/in later in FY18
- b. or, to be safe,.....put in a different permit from a different WB
- c. wait until early next week to get this sorted out.....(we won't have definitive answer for you until Tues at earliest)

call if necessary.

**Subject:** CA inkind services - contractor needs for FY18

Hi Gil – per our discussion this morning, I will be lead Work Assignment COR for EPA Region 9 to set up CA inkind services (IKS) contract. (We will be using HQ contract this time.) We will be submitting paperwork for review at end of this week and final submittals before end of this month.

As soon as possible, please provide me with some numbers associated with each IKS task identified below:

ICIS data entry:

(Sandra has suggested ~120 total (60 majors; 60 minors)

Pretreatment inspections, etc:

Permit writing/assistance:

EPA folks: we will also need to ID any potential travel by contractor and number of trips etc.

I have rec'd two IKS letters, signed by Phil Crader, for permit writing and ICIS data entry.

IF you have the third IKS letter for Pretreatment, please fwd to me.
